

Simon Gunanoot is Dead Was Supposed Bad Man Pneumonia Claimed Him

Simon Gunanoot is dead and with his passing goes one of the famous characters of the Hazelton District. Simon was 58 years of age and is survived by a wife and four sons, the oldest, Fred, having been admitted to the Hazelton Hospital as a patient the day his father died away up on Bowser Lake in the northern part of the province.

Gunanoot was Indian and belonged to the Hazelton tribe. He married in Hazelton. It is a matter of history that some of the white men of the district also liked his wife. That was not agreeable to Simon. A white man was found dead between the hospital and Two Mile on the main road. Gunanoot was blamed for the shooting. He disappeared. A policeman went out the Kispit road for him, but found an other dead man in the trail. The officer of the law did not like the looks of things and returned to town. The fleeing Indian was also blamed for the second shooting.

There was considerable excitement stirred up in the village. Simon was dubbed a bad man. Police men, gun men, adventurers, and others went out after the desperate Indian, but no one ever got very far. The quiet of the forest was apparently bad for their nerves. Finally the provincial government discovered that a lot of money was being spent by the government to give some brave fellows a holiday along the Skeena where everything was wide open. No one wanted to get Simon, but the boys wanted a good time.

Gunanoot was never a bad man and although it was never proved in court that he did the shooting, he would only have considered he was doing right if he had done the shooting.

Gunanoot went into the hills and the valleys to the north and remained for years, although he was not a real outlaw. He was frequently in Hazelton during the years following the shooting. The first few years other Indians traded his furs and took out supplies, but they skinned him badly and he finally entered the settlement and did his own business.

Gunanoot did well as a trapper and he stored up considerable means. In 1919 arrangements were made for him

to come into Hazelton, give himself up and stand trial. It was generally understood that there would be no chance to convict him as most of the witnesses were dead and those living had forgot ten. Gunanoot was tried and he was dismissed and returned to Hazelton a free man, although it is doubtful if he appeared in Hazelton any oftener after he was freed than he did while considered an outlaw.

Of late years Gunanoot and his wife and one or more of the boys were with him trapping and hunting and fishing on the Bowser Lake territory, although at the time of his death only one son and his wife were at home.

Gunanoot was stricken with pneumonia and failed to throw it off. He died on his trap line, and his body was carried into the settlement, some seven miles by Thomas Campbell, the young son, and was there buried in the old Indian cemetery.

Gunanoot was a big man, and a good Indian, as Indians were considered at that time by white men. He was a powerful man, and a pretty good looking Indian. Whether he was a bad man or not is doubtful. Those who knew him best said he was not. The others who knew him were not inclined to get too well acquainted. Anyway he is gone and is survived by a widow and four sons.

LATER ABOUT GUNANOOT

It appears now that Simon Gunanoot died last October while on his trap line in company with his son David and a young Indian named Thomas Campbell of Hazelton. They were on Bowser Lake which is some sixty miles west of Stewart and on the west side of Naas river.

It seems, according to official reports that the Indians failed to report the death of Gunanoot until a few days ago when a number of them arrived at the village of Stewart. Gunanoot's son sent a wire to his brother Fred in Hazelton that their father was dead, and then the story began to leak out.

The Indian Agent in Hazelton is in touch with authorities in Stewart for the purpose of getting all details before the Indians return inland.

What You Know Of Prince Rupert

The Kitsumkallum timber is again in the lime light. This is one of the oldest timber stakings on the Skeena and has figured in a lot of negotiations and it appears will figure in more negotiations. It is reported that eastern interests have eyes on that timber for the purpose of supplying feed to a pulp mill to be established at or near Prince Rupert. Oller Besner, one of the old timers in Rupert, is connected with the new enterprise.

M. P. McCaffery, another old timer in Prince Rupert, has announced that very shortly work will start in Rupert on a second cold storage plant in connection with the ice plant he established on the waterfront last year. The fish industry has developed to such a point that he believes another cold storage plant is necessary.

After a holiday of a couple of years the herring reduction plant near Rupert is about to reopen and turn out fish meal and oil to capacity.

Many men have been put to work in the logging camps adjacent to Prince Rupert, and men are being put to work every week. Most of these men are brought up from Vancouver, perhaps

some from the States. There are a lot of men in the interior who are as good loggers as any from Vancouver and no doubt they could get work if an application was made.

John Dybbaven told the people of Prince Rupert recently that the outlook for the halibut fishing business was very bright. He had been in the east and learned that by the time the halibut fishing season opens all the stocks of frozen fish would have been cleared up and the market ready for the fresh fish. This should mean a good price for the fishermen this year.

PRELIMINARY REPORT IS OUT

Bulletin No. 3 Deals With the Mineral Development During 1933

Bulletin No. 3, "Preliminary Report on the Mineral Industry of British Columbia for 1933" has been issued and may be had upon application to the Department of Mines in Victoria. It will be seen by referring to this Bulletin that the mining industry in this province is in a very healthy condition with a definite upturn in production, and employment setting in for the first time since 1920. Of particular interest and importance is the doubling of the value of the gold output in the last two years and the intensive development now under way throughout the province on gold properties.

HYPHENS HAVE DISAPPEARED

We have run out of byphens and we beseech the indulgence of our readers until a new supply can be secured from the factory. Where the byphens went we do not know, but there are none in the machine, although last week some were available. In the meantime just make a good guess, and then look at the next line.

United Church Makes Report Year's Work

The annual meeting of the United Church in Hazelton was held on Monday night in the church and there was a very good attendance of members and adherents. The pastor, Rev. S. V. H. Redman occupied the chair. Reports were received during the evening from the Pastor on his phase of the work; from the Sunday School by Mr. Newick from the Ladies Aid by Miss Sutherland; from the C. G. I. T. by Miss Russell; from the Explorers by Rev. Mr. Redman; from the trustees by Dr. H. C. Wrinch; from the treasurer by John Newick.

The officers for the ensuing year are as follows:—

Board of Managers—Rev. Redman, chairman, Dr. H. C. Wrinch, Dr. L. B. Wrinch, John Newick, V. Hawkins, Miss Ford, Mrs. Redman and Wm. Grant.

Mr. and Mrs. Mallinson gave a number of solos during the evening which were greatly appreciated. Dr. H. C. Wrinch gave an historical talk on the establishment of the church in Hazelton, both the Presbyterian and the Methodist. His studies took him away back to times before he came to the country. The address was very interesting and instructive.

HAZELTON LADIES AID SOCIETY

Elected Officers for Another Year and Heard Good Reports of Last Year's Work

The annual meeting of the Ladies Aid Society of the United Church in Hazelton was held at the Manse on Thursday last and there was a splendid attendance. Reports were received from the secretary, Mrs. Wm. Grant, and from the treasurer, Miss Sutherland. Both reports revealed that, despite the economic difficulties of the past year, the work of the society had progressed and considerable financial aid was given to the various enterprises of the church. The minister, S. V. H. Redman, commended the ladies on their loyalty and work the past year.

The following officers were elected for the ensuing year:—

President—Mrs. S. V. H. Redman
1st vice president—Mrs. Benson
2nd vice president—Mrs. S. Mallinson
Secretary—Mrs. Wm. Grant
Treasurer—Miss M. Sutherland
Manse and buying committee—Mrs. Newick and Mrs. Grant.
Visiting committee—Mrs. Hindle, Miss Ford and Mrs. D. Fraser.

Canadians desiring to obtain an authoritative booklet on fish cookery may now receive one, without charge, by writing to the department of Fisheries at Ottawa, and asking for a copy of "Fish and How to Cook it."

Since Great Bear Lake is only 391 feet above sea level and its greatest depth is 75 fathoms (450 feet) the bottom of the lake at that point must be below sea level.

Dr. H. C. Wrinch has been appointed to the executive committee the Lord's Day Alliance.

J. C. Keller of Telkwa has been appointed to the executive of the Swine Breeders Association of British Columbia. The Association met a short time ago in Chilliwack.

Hazelton Hospital Needs More Money to Cover the Losses of Outside Grants

The financial statement for the past year of the Hazelton Hospital was presented to the board of directors at a meeting held last Wednesday night. The statement showed a gross revenue of \$2,323.47, with an expenditure of \$26,793.58, almost \$1500 in excess of the revenue. To this must also be added some \$500 of outstanding accounts at the end of the year, bringing the deficit up to \$2000.

This was not anticipated when the budget was prepared last year, and it would not have occurred had the appropriations for hospital support from the provincial government and the United Church remained at the rate for 1932. The shortage of income from these two sources alone was \$2155.59, or slightly more than the deficit for the year.

During the past year the donations from the public at large fell off over \$317. This may be accounted for by the fact that no canvass was made last year as in former years, but the people of the district did not have the money last year and could not have given had the desire been ever so great. It was hoped that other sources of income would have been sufficient to meet all requirements, but those other sources of income did not come as anticipated for reasons given above.

At its last meeting the Board of Directors decided to give the patrons of the hospital and the people of the district an opportunity to assist the hospital at this time when help is so

badly needed. It is planned therefore with the assistance of the Woman's Hospital Auxiliary, to make a canvass at an early date, and thus revive the old custom. Donators will become active patrons of the hospital and be able to attend the annual meeting which will be held the end of February or early in March, for the purpose of electing directors to the board and other business. The date of the annual meeting will be announced as soon as possible.

Almost as many patients as usual passed through the hospital last year, the difference being about in proportion with the decrease in the population of the district, and which was due to a decline in business in the main industries of the district.

It has been found that patients in the hospital greatly appreciate the services of all graduate nurses, and the work under the new arrangements are running smoothly and satisfactorily.

The unprecedented cold spell at the end of the year tested the heating capacity of the plant in the new hospital building most thoroughly, and it was very gratifying to find that it stood up under the burden well, there being only a minimum of trouble from frost getting into the building.

At the meeting of the board Mrs. H. W. Sharpe, the official delegate to the annual convention of the British Columbia Hospital Association held in Victoria in November, gave a very full and interesting report.

Quarter Century

From Our Own Files

In July 1908 William Larmer arrived in Hazelton and he was referred to as a man who had been in charge of big elevators on the prairie. He is reported to have given an opinion that Bulkley Valley wheat was as good as No. 1 of Manitoba. Mr. Larmer gave quite an interview on wheat. It has turned out that the Bulkley Valley will produce as good wheat as any grown on the continent, but the trouble is that not enough was ever grown to impress the world.

The Babine Fish Hatchery was established 28 years ago and since then many millions of sockeye salmon have been hatched and turned out to sea each year. Some came back, but not many.

In those days the Indians fishing at Hagwilget considered it a day lost if each fisherman did not get at least a hundred fish. The catch during the fishing season now days is only a small portion of that total.

On Saturday, July 26, 1908 ground was broken for Steve Slingers new building on Omineca street in Hazelton. Lumber was scarce in those days and Steve could only put up part of the building and had to add to it later.

Hugh Harris and Bill Burkin arrived in Hazelton in July, 1908 from the Kispiox with ore samples that ran all the way from \$75 to \$170 per ton. It is now believed that they got all the ore with the first sampling.

The first nurse to graduate from the Hazelton Hospital was Miss Annie C. Lawrence. E. C. Stephenson was chairman of the advisory board at the time and after the graduation ceremony the event was fittingly celebrated at the hospital.

The forests in Canada rank second only to agriculture in their contribution to the national income.

E. T. Kenney, M.L.A., will pay a visit to this part of the district the latter part of the month. He will address the annual meeting of the Chamber of Commerce in Smithers on February 1 and shortly after that will leave for Victoria to attend his first session.

The British Broadcasting Commission has a special board to decide on proper pronunciation of all English words, as a guide to the announcers. On this Board are two Scotchmen and two Welshmen, one Irishman and one American. They are to decide how the English language should be spoken.

Viewed in their relation to plant life, the most important climatic factors are temperature, precipitation and evaporation. Of less importance are wind, sunshine and humidity.

Australia estimates its wheat crop this year at 152,500,000 bushels.

Eastern Canada and Newfoundland enjoyed the first of the week record breaking cold weather. From Newfoundland 40 to 50 below was reported and from Nova Scotia 47 below was reported. This is the record for all time so far as records have been kept. If it is as cold on the Atlantic as it is on the Pacific when the thermometer drops below the freezing point, then it was some cold, and we would much prefer being in Dawson at 64 below.

The United States is preparing to put another \$380,000,000 into their own navy and thus bring it up to the full strength allowed by the London treaty.

The Dominion House of Commons is opening tomorrow (Thursday) and it is estimated that it will remain in session until midsummer. There seems to be a lot of important business to attend to and also a lot of private members bills.

Some air men figure on flying to Canada from London some day in two hours or less. They plan to use the upper air, flying at a height of 47,000 feet.

Pleased With Canada

The magnificent scenery of Canada so enthralled Lord Macmillan chairman of the Royal Commission on banking, that Scotsman though he be, he confessed, just prior to sailing for England on the Empress of Britain, that it dwarfed the scenery of Scotland, and that the only thing needed was for some author to blend it with the romantic history of Canada, as Sir Walter Scott had blended the scenery of Scotland with the romantic history of the land of Bonnie Prince

Charlie. A lake he visited in the Gatineau Valley he admitted was more magnificent than Loch Lomond, while his description of Lake Louise was that it seemed to him almost a celestial vision. The Butchart Gardens in Victoria he asserted to be the most beautiful sight that the eye could rest on — in fact throughout the whole of the Dominion the eminent Privy Councillor found beauty everywhere he went, and declared that he would carry back with him memories that he would cherish.

The annual congregational meeting of the New Hazelton church will be held in the church on Monday evening next at 8 o'clock. After the business is concluded there will be a social evening. All members of the congregation are invited to be present, this also includes the adult adherents.

Over 222,000 pounds of halibut livers were marketed by Canadian fishermen last year and were used by pharmaceutical firms in the production of halibut liver oil. Until a very few years ago halibut livers were of practically no commercial value.

HOSPITAL NEEDS YOUR HELP

In a few days the people of this district will be called upon by one or more of the ladies and given an opportunity to lend their assistance to the Hazelton Hospital in a substantial way.

Owing to conditions over which the Hospital management has no control it has been found particularly difficult to meet all the expenses of the past year.

For reasons known to everyone, the government grants and the church grants have been cut by over two thousand dollars the past year, and the local contributions have fallen away to almost a blank, except for donations of kind. Then there has been a decrease in the population and a big decrease in the important industries of the district which resulted in a lower attendance at the Hospital. The effect of all this has been that the Hospital is \$2000 in the hole and the present effort is to try and get that deficit made up, or a good part of it at least.

The district has a good hospital. It is new and it is modern. It is much larger than the old institution, and the cost of upkeep is much greater. When the attendance of such an institution falls off it does not follow that the cost of upkeep can be reduced accordingly. Some reductions can be made, and as nearly as possible reductions of cost have been made without injuring the service rendered.

The citizens of the district can do a great deal at this time, even if each only gives a little. It is a worthy institution and no contributor will ever regret any assistance given.

OUR WEATHER IS THE BEST YET

The people in the Hazelton district do not know yet what disagreeable weather conditions are. We thought that during the holiday season we were getting more than our share of diet, but we got only a fraction of what the districts west and east got and have been getting. It was cold here but it was colder east; it was snowing here and we had some rain; but west of here it was cold with a high speed breeze blowing; they had snow to a depth we never get; they had rain and it made sloop and slush under the snow so that one goes to the boot tops in it when crossing the streets. We can at all times navigate safely either on foot or by car, even though it rains because the ground is well frozen. Let's be thankful that our district is not as the other districts are.

A PRIME PIECE OF BEEF

We had a piece of beef the other day that was really prime, well finished and well dressed beef, and there was as much difference in the looks and flavor as there is between any perfect thing and a careless, haphazard thing—a delicious taste was left in the mouth. The beef, we were informed by the butcher who sold it to us, was a local product, that is, was produced in the vicinity where it was purchased. That only proves that prime beef can be produced in the north; that it can be finished and put on the market in the most attractive style. If the interior farmers would make it a point to put only that class of beef on the market there would be no question of the demand nor of the price. A good article is worth paying for. We have the farmers who can do it if they want to; we have the feed and we have a country that will produce any kind of feed necessary to prime beef production or the perfect production of any kind of meat. When local beef is all prime there will be no more imports, and the price to the farmer will enable him to make a profit.

The Dominion Government is considering a plan of short term loans for the farmers.

Born to Mr. and Mrs. Norman R. Redman, at the Anyox General Hospital, on January 15, a son (Gordon Keith). Mother and son doing well.

Here and There

Four moose and two bear were taken by a party of six Paterson, N.J. hunters in the Kipawa district recently. The moose ranged from fifty to fifty-eight inch heads. This early success points to a good season in the district north of Montreal.

October 10-11 are the dates set for the International Cover Dog trials to be held at Petersburg, New Brunswick. Many letters have been received from dog fanciers, both in the United States and Canada, inquiring as to the trials and a large entry list is expected.

First shipment of asparagus from Port Nelson, Ontario, to England, aboard the Duchess of Richmond recently, has been acknowledged by letters from the Old Country, stating that the "grass" arrived in excellent condition and was of exceptional quality and flavor.

Among the recent visitors to Grand Pré Memorial Park, in the Evangeline country of Nova Scotia was Mrs. A. J. Lafrance, of Laconia, N.H., whose husband is a lineal descendant of Francois Lafrance, an Acadian officer banished at the time of the expulsion of the Acadians.

Tom Wilson, trail-blazer, trapper, hunter, Indian guide and veteran explorer, world-known for his discovery of Lake Louise and Emerald Lake in the Rockies, and last of the Canadian Pacific Railway's pioneer builders, passed over the Great Divide recently. He was in his 75th year.

A generous supply of British capital awaits investment in Canada, Sir Herbert Samuel, leader of the Liberal parliamentary party in the British House of Commons, told a large luncheon meeting of the Canadian Club at the Royal York Hotel, Toronto, recently.

The world's largest map of Canada, 30 feet high and 100 feet long, painted by Montreal artists on linen, hangs in the Hall of Nations, Chicago World Fair, as a joint display of the Dominion Government, the Canadian Pacific and the Canadian National Railways. Guarded by three red-coated members of the Royal Canadian Mounted Police, it is one of the most popular exhibits of the great fair.

Sir William Shenton, Carlton Club, Pall Mall, London, who was a delegate to the meeting of the Institute of Pacific Relations held at the Banff Springs Hotel, in August, recently concluded a salmon fishing trip to the upper waters of the St. John River near Perth. Having fished in Ireland and Norway, Sir William stated that the St. John River salmon could not be beaten for fighting qualities and average size.

One of the largest cargoes of lumber shipped from Saint John on the Canadian Atlantic sea coast was forwarded to Great Britain recently. It consisted of 3,043,596 feet, mostly of deals.

Output of nickel in Canada in 1932 totalled 30,327,568 pounds valued at \$7,179,862. Production during the first six months of 1933 amounted to 22,802,434 pounds as compared with 21,162,786 pounds for the corresponding period of 1932.

Every home at some future date will have "air conditioning" and the word "heating" will pass out of use among home owners, J. J. Donovan, General Electric Company expert, told a largely attended meeting of the Electrical Club at the Royal York hotel, Toronto, recently.

Steep grades of the Rocky Mountain areas presented no difficulty to the Royal Scot, crack British flyer, en route to Winnipeg and the east from Vancouver recently. The all-British train is attracting great popular enthusiasm throughout Canada on its return journey to Montreal.

Montreal's "million dollar hole" on Dorchester street, where a railway terminal was to have been built, will become the world's most costly sunken garden, if Canada sees eye to eye with a couple of Montreal aldermen, who advocate beautifying the gash with flowers and shrubs.

a human tendency

TOO FEW business firms employ advertising to lessen their costs of selling.

Business enterprise today has two major problems: 1: To increase sales; 2 To lessen cost of selling. Yet so many omit the use of advertising, despite their readiness to agree to the proposition that "advertising lessens the cost of selling."

We're frankly amazed at the avoidance of advertising in the face of the knowledge that it costs less to sell with the assistance of advertising than without it.

Strange, strange—this human tendency to go contrary to what knowledge and experience have taught us is right.

To lessen your cost of selling, we commend to you an adequate campaign of regular advertising in **The Omineca Herald**.

Terrace Notes

St. Matthews Women's Auxiliary will hold up the business for the past year on Wednesday, January 31 at a meeting to be held at the home of Mrs. M. Greig. New officers will be elected and plans prepared for another year.

Word has been received from Cons. H. L. McKenney who, with Mrs. McKenney, are visiting in Vancouver. Mr. McKenney will be home this week and Mrs. McKenney a week later. While in the city they met quite a number of old timers from Terrace among whom were Mrs. D. D. Munro, Mrs. Jas. Richmond and Mrs. Ardagh who are staying with Mr. D. McLeod.

Mrs. F. Diggles and three daughters left Friday night for Halifax where they will embark for Halifax. They intend to make their home for the time being at least with Mrs. Diggles' sister in Yorkshire.

According to all traditions there is going to be an early spring. In Lakelse Valley the rabbits are beginning to get rid of their winter coat and there are very distinct signs of the darker fur of the summer coat. May the rabbits be right.

On Wednesday evening the Rebekahs spent a most enjoyable evening in their lodge room in the I.O.O.F. hall. There was a whist drive among other things.

O. T. Sundal made a business trip to Prince Rupert last week.

Several men are engaged putting up a supply of ice for the anticipated warm weather some months hence.

WANT FLAT RATE MOTOR FEE

A discussion was held at the Board of Trade meeting on Tuesday night dealing with the matter of motor licenses. It was brought out that the car owner in the north has much less use of his machine than the man in the more densely settled parts of the province, but the local man still pays the same fee. As a result of the discussion a resolution was put through recommending a nominal flat rate license the government being reimbursed by the great increase of revenue from the gasoline tax, owing to more cars going into service.

J. McLaren is again giving dancing lessons at a weekly dance, and the very young are not the only ones attending.

Board of Trade Is Re-organized Another Year

On Tuesday night the Terrace and District Board of Trade held its annual meeting. After the reports had been received and some business attended to the officers for the year were elected. The president remains the same as last year. The vice president is H. King, and N. Sherwood and Geo. Beveridge remain as secretary and treasurer, respectively. E. T. Kenney was elected an honorary president along with J. K. Gordon who was elected last year as a permanent honorary president.

The council for the present year will be: F. Nash, W. A. Kirkpatrick, T. J. Kirkpatrick, J. D. Jones, J. Hepburn, Geo. Little, R. W. Riley and Will Robinson. In addition councillors from the outlying sections were named as: Remo C. Lindstrom; Copper City, L. G. Skinner; Kalam Lake, W. Warner; Pacific Bud Corley; Usk, Capt. Willman.

S. A. Corley, who was visiting in town was present at the meeting. He pointed out the need of continually pressing for reduced freight rates to enable the farmers on the line to successfully compete with produce from the south that reaches Prince Rupert at less expense than do similar goods from Terrace and Pacific.

ODDFELLOWS NEW OFFICERS

Last Wednesday night the Oddfellows installed their new officers as follows:

N. G.—S. Pearson
V. G.—R. McLaughlin
Secretary—T. E. Brooks
Fin. Secretary—T. Haugland
Treasurer—J. H. Smith

The Rebekahs officers for the ensuing term are:

N. G.—Miss Betty Anderson
V. G.—Mrs. J. H. Smith
Secretary—Miss Vera McInnes
Fin. Secretary—Mrs. W. C. Sharpe
Treasurer—Mrs. E. T. Kenney.

HIGH SCHOOL EXAM RESULTS

The following is a list of the results obtained by the students of the Kitsumgallum High School in the Christmas examinations. The names appear in the order of merit:

Grade 9—Maxine Llewellyn, Ruth Little, Billie Cooper, Frances Dover, Jimmie Smith, Marion McLeod, Norman Chapman, John Christy, Dorothy Head, Marjory Llewellyn, Dorothea Martin, Eileen Taft, Bruce Smith, Earl Badie, Margaret Houlden, Barbara Sherwood, Francis Smith, Clara Little, Dorreen Willson (unmarked).

Grade 10—Jennie King, Adela Haughland, Mary Maxsum, Joe Hipp, Gilbert Grade McCulloch.

Grade 11—Jean Dover, Catherine Finlayson, Velma Greig, Lenis McKenney, Mary Smith (unmarked.)

Grade 12—Alair Lips, Alice Hamer, Lloyd Thomas, Fred Nash, Rita Taft, Ralph Skinner, Marjorie Kenney, Ade Hue Thomas, Edna Dover, Helen Glass, Rose King, Doris Houlden, Sophia McLaren.

On Sunday evening Rev. W.R. Welch devoted the sermon period at Knox Church to a talk on some phases of the missionary work in Central Africa. He went on a mission station on the Congo river in October, 1904, and his material was taken from his personal experiences among the natives.

The fire alarm is once more ready to use in case of necessity. After the fire which destroyed the electric light plant the alarm was out of commission as no power was available to fill the air tank that operates the alarm. That difficulty has since been overcome.

Lake Winnipeg is 710 feet above sea level, Lake Superior 602; Lake Huron 581; Lake Erie 572; Lake Ontario 240; feet above sea level.

BASKETBALL GOING AGAIN

Owing to there being no electric light in Terrace basketball activities were stopped early in December, but after six weeks, suitable lighting arrangements have been made. A meeting was called for January 6 when the decision to carry on was made. Fred Nash Jr., was elected vice president and C. Michiel was appointed business manager to fill the places of S. McLeod and Dud. Little who have gone away.

The first exhibition games were held on Saturday last. In the events of the evening the Intermediate girls had a very snappy game. The main events, however, were in the senior league. Girls—The Mikes called the Reds home with a score of 15 to 12. With a slight change in the team the Reds were better able to hold the Mikes down. Both teams played a good game.

Score—Mikes—Mrs. Michiel 0, B. Moore 9, A. Thomas 6, J. Dover 0, E. Head, R. King, L. Christy. Total 15.

Reds—S. McLean 2, D. Houlden, E. Kohne, 2 V. Greig, M. Glass 8, H. Glass M. Maxsum, M. Kenney. Total 12.

In the senior boys game the town defeated the high school by a score of 52 to 9. The town played a fine game with Michiel, Begmore and Nelson doing some excellent floor work. The high school with the aid of W. McConnel, formerly of the town team, made a desperate effort to claim the honors.

Score—Town—C. Michiel 20, J. Bigmore 14, D. Nelson 16, F. Hipp 2, F. Green. Total 52.

High school—L. McKenney, F. Nash 3, L. Thomas 6, R. Skinner, W. McConnel. Total 9.

D. McKinnon has been under the weather for a time and last week had to throw up the sponge. He is being relieved by Chas. Youngman of Prince Rupert. Mr. McKinnon is reported as making satisfactory progress towards recovery, but he will not be on the job again for several days. His cheery smile is missed about town.

SEND A DELEGATE TO VICTORIA?

The Union of British Columbia Municipalities will hold its annual meeting in Victoria on January 30th. This is likely to be one of the most important meetings the Union ever held as the Municipal Act is likely to come in for a complete overhauling at the next session of the Legislature. A great many changes will be made and others could be made will would effect this particular municipality. This year every municipal council in B. C. should have a representative at that meeting to look after the interests of the community, and Terrace would do well to send a delegate.

Progress is reported in the negotiations between Terrace and the Columbia Power Co. re taking over and operating the electric light and power plant in this village. Something definite is expected in the very near future.

THE ELECTION IS ON AGAIN

There will be a municipal election in Terrace alright this year. Nomination day was last Monday and nominations were received at the municipal offices. Three commissioners are to be elected and five nominations were received as follows:—W. A. Kirkpatrick, J. B. Agar, J. H. Smith, W. F. Lindsay and T. Walsh. The election will be held on Thursday, January 25, and N. Sherwood will act as returning officer with Ralph Cory as poll clerk.

The shower of kitchen utensils given under the auspices of the following committee, Mesdames Greig, R. Christy, W. C. Sparkes, and G. Beveridge, was a decided success and as a result a number of homes in the district are better provided with some necessities. In addition to local contributions there was a shipment from Mrs. Nerrington of Prince Rupert.

WITH THE TRAIL RIDERS

East is East and West is West, but men ride wherever the sun shines and the Trail Riders of the Canadian Rockies, with a membership which girdles the globe, are creating widespread interest with their plans for their 1932 expedition from Banff to Mount Assiniboine, through some of the most beautiful country in the great mountains from which they take their name. The famous peak, with its many adjoining lakes and valleys, was the focal point of the 1927 trail ride and this year's trip, starting on July 29, will follow generally the same lines, with nights spent in camp, according to the best traditions of the Order. Ample time will be given for exploring the territory traversed; the ride occupying five days and traversing Brewster and Allenby Creeks; Assiniboine Pass and the shores of Lake Magog to the great mountain, which is the objective of the riders. Return will be made through the Valley of the Rocks; the Golden Valley; Citadel Pass and so

through Sunshine Camp to Banff once more. The pictures shown above are distinctly interesting and show Lt. Col. Phil Moore, president of the Trail Riders, and Mrs. Moore, on camel-back at the Pyramids, during the world-cruise of the Canadian Pacific liner "Empress of Britain", in strong contrast to the cowboy viewing Mount Assiniboine, where this year's trail ride leads. Inset is H. M. King Prajadhipok of Siam, who proved an enthusiastic trail rider during his visit to Canada last summer. Below, two fair bathers are seen setting out from one of the cabins at Assiniboine Camp.

Doings Around Home

Of interest to you and your friends

Mrs. Walton Sharpe was re-elected vice-president of the W. A. to the H. H. at the annual meeting early in the present month.

Miss Little of Woodcock was in Hazelton Hospital Saturday for a minor operation. She returned to her home Saturday afternoon.

Miss Kathleen Bailey of Prince Rupert, formerly on the Hospital staff, is in Hazelton.

Harry Walker, who has been in Hazelton for a couple of months, left last Thursday for the coast and a trip up to Stewart.

There were quite a number of commercial travellers in the district the past week or so. This is the first trip of the new year for most of them.

John Newick of Hazelton reports he is again fit and on the job. Mrs. Newick is also feeling better.

Burns Lake reports the presence of big grey wolves in that vicinity and that the animals are making a mess of the game in the country.

President Roosevelt's request for a fifty or sixty cent dollar was carried by Congress with a majority of 320. It is now up to all good Americans to make a lot of money while the making is, good.

The U. S. Radio Commission is considering a tax on radio listeners of \$2 per set. Heretofore the American radio owners had no tax to pay.

There is rejoicing among the B. C. lumbermen over the agreement by the British Government to accede to Canada's request to limit Soviet Russia's lumber exports to Britain. Premier R. B. Bennett insisted on this as part of the Ottawa Conference agreements and he won his fight. It will make a difference to Canada of some 800,000,000 feet.

Premier Pattullo in a review of the conference of premiers at Ottawa last week stated that there was no feeling evidenced of east vs west. They were all there for the purpose of doing the very best possible for Canada.

The leading industries of British Columbia, Agriculture, Mining, Timber and the fisheries produced seven million dollars worth more in 1933 than in the previous year, although the value of the produce was only half of what the value was in 1926. Thus 1933 in this province was not so bad as many tried to make it appear.

Silver money in Canada would not hurt Northern British Columbia very much.

Mineral Act

CERTIFICATE OF IMPROVEMENTS

Notice

Silver Bell Mineral Claim, situate in the Omineca Mining Division of Cassiar District,

Where located—On Six Mile Creek, Four Mile Mountain, near Hazelton, B. C.

TAKE NOTICE that J. A. Rutherford, F.M.C. No. 62637D, agent for Wm. Glebe, Free Miner's Certificate No. 40381D, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 3rd day of January, 1934.

27-35

Here and There

Twenty-nine men and seven women who pioneered Alberta trails died in the present year. All of them saw the west when it was young, the west that existed before 1895. The current year marks the half century since the Canadian Pacific came to Calgary.

Sailing for New York December 14, the 42,500-ton white-hulled Empress of Britain left on a Christmas and New Year's holiday cruise for the West Indies, December 22, returning to New York January 3 and sailing again January 4 for a 4½-month cruise around the world.

Among the "Believe It or Not" facts wellknown to the generality of newspaper readers, may be added the statement of S. G. Hibben, of the Westinghouse Light Company, made recently in an address at the Royal York Hotel, Toronto that "today there are some 10,000 different kinds of artificial light sources."

Approximately 78,000 people own the Canadian Pacific Railway, through their ownership of the company's common stock. Of these, 35,000 live in Canada. Of the balance, 21,000 live in other parts of the British Empire, mostly in England, with 16,000 in the United States and 5,400 in other countries, mostly continental Europe.

For the first time in western Canada, an impressive ceremony, the age-old investiture of the Knights of St. John was held recently at the Hotel Vancouver, Vancouver when six British Columbians were admitted by King George, sovereign head of the order, to high honors. Old world costumes and strange rites added to the dignity and color of the proceedings.

Railways and their important functions in the economic existence of the State were stressed by G. G. Ommanney, development commissioner of the Canadian Pacific Railway at the annual banquet of the Traffic Club of Hamilton recently. They had, he said, contributed materially to development of natural resources building up of industries and in promoting land settlement and agriculture.

Railway and motor truck transportation are both essential to the economic wellbeing of Canada and neither should be antagonistic to the other, stated Hon. R. J. Manion, minister of railways and canals, at a national conference on transportation held at Ottawa recently. But, he added, while railways are subject to strict regulation and control, motor truck service has not as yet been brought under any comparable control or regulation.

Many in this section will regret to learn that W. J. Raymond, editor of the Prince Rupert Empire, and who visited here last summer, has been in bed for some little time suffering an attack of flu. It is hoped he will soon recover and get on the job again.

The annual congregational meeting of the New Hazelton church will be held in the church on Monday evening next at 8 o'clock. After the business is concluded there will be a social evening. All members of the congregation are invited to be present, this also includes the adult adherents.

Born to Mr. and Mrs. Norman R. Redman, at the Anxox General Hospital, on January 15, a son (Gordon Keith). Mother and son doing well.

It has been decided to hold a world's fair in London, Eng., in 1936. Time to start saving for that trip is right now. It will be worth saving for.
